The Ecologist

INDEX Vol. 12 1982

INDEX OF AUTHORS

Bandyopadhyay, J—see Shiva Vandana
Bunyard, Peter: Power—Atoms or Animals? 6: 234-235
Burch, David: Appropriate Technology for the Third World: Why the Will is Lacking 2: 52-65
Bean, Cleeland: Fighting to Save the Wildlife of Strangford Lough 3: 136-137
Brekilien, Yann: The Real Regions of France 5: 217-226

Cook, D.D: How Fares the Environment Lobby against President Reagan? 6: 264-266

Fitzsimons, Jeanette: Beyond Logic: The Real Reasons for Synthetic Fuels 4: 169-175

Goldsmith, Edward: An Environmental Programme—But for whom and what? (*editorial*) 2: 50-51
The Retreat from Stockholm (*editorial*) 3: 98-100
The Super-informed Society 3: 107-116
Richard St Barbe Baker. A Tribute 4: 146
Traditional Agriculture in Sri Lanka 5: 209-216
Grainger, Alan: Will the Death Knell Sound in Silent Valley? 4: 185-188

Hills, Lawrence, D: Seeds of Discontent 6: 236-242
Hildyard, Nicholas: Development: No cure within the Market (*editorial*) 1: 2-3
Expediency Rules O.K. (*editorial*) 5: 194-195
Hughes, Donald and Thirgood, J.V: Deforestation in Ancient Greece and Rome: A Cause of Collapse? 5: 196-207

Illich, Ivan: The De-linking of Peace and Development 6: 243-247

Jeffery, J.W: The Nuclear Economic Fraud 2: 80-86

Kauber, Peter: Technology and the Quest for Rational Control 2: 87-92

Lutzenberger, Jose, A: The Systematic Demolition of the Tropical Rain Forest of the Amazon 6: 248-252
Lusigi, Walter J: New Approaches to Wildlife Conservation in Kenya 3: 101-106

Martin, Brian: The Naked Experts 4: 149-156
Moneyhon, Carl H: The Environmental Crisis and American Politics 1860-1920 1:23-31

Plumwood, Val and Routley, Richard: World Rainforest Destruction—The Social Factors 1: 4-20
Pollard, Nigel: The Kibbutz—an Ideal Society? 3: 125-134

Robinson, John: Legitimisation for a Failing System 6: 261-263
Rodgers, Nigel: The Death of a Culture—the Lacandons get rich 3: 135-136
Routley, Richard—see Plumwood, Val.
Roy, Bunker: Electricity Comes to Rural India 2: 62
Rubinoff, Ira: Tropical Forests: Can we afford not to give them a Future? 6: 253-258

Sampson, R. Neill: Land for Energy or Land for Food? 2: 67-68
Sedlmayr, Hans: Three Apercus on the Industrial System 6: 260-261
Serafin, Rafael: The Greening of Poland 4: 176-184
Sharatchandra, H.C.—see Shiva Vandana
Shiva Vandana, Sharatchandra, H.C and Bandyopadhyay, J: Social Forestry—No Solution within the Market 4: 158-167

Thirgood, J.V.—see Hughes
Trussell, Denys: History in an Antipodean Garden 1: 32-42

Wilson, Des: Lead: A Clearcut issue? 117-124

SUBJECT INDEX

Acid Rain—effects on US agriculture 2: 71-72
Agriculture — and energy compete for land in US 2: 67-74
buffalo preferred to tractors in Sri Lanka 5: 214
cause of deforestation in India 4: 158-168
effects of soil erosion in US 4: 158
energy intensive in kibbutzim 3: 127-135
F.A.O. promotes use of pesticides 2: 50-51
Green Revolution in India 4: 158
impact in Ancient Greece and Rome 5: 204-207
in Sri Lanka 5: 209-216
lack of funds from World Bank 2: 53
land spoiled by heavy machinery 6: 235-236
value of bullocks in traditional farming 6: 234
versus wildlife in Kenya 3: 101-106
Wakefield's long term vision for New Zealand 1: 36-37
Aid — influence on Third World energy projects 2: 63
Alternative Technology — in the Third World (*editorial*) 1: 2-3
Aluminium smelter — closed by Poland's Ecology Club 4: 183
Amazonia — destruction of rainforests 1: 7 and 6: 248-252
Amerindians — traditional life destroyed 6: 250
Lacandons face extinction 3: 135-136
Animals — preferred source of energy in the Third World 6: 234-235
Appropriate technology — costs 2: 52
implications for industrial countries 2: 54-55
in the Third World (*editorial*) 1: 2-3
political dimensions 2: 52
reasons for failure 2: 62-65
second best in the Third World 2: 56-58
Artificial fertilizer — needed for hybrid strains of rice 5: 212
Australia — alternative seed trade 6: 239
nuclear power—the experts vs the opposition 4: 150-154

Baby farming — in Sri Lanka (*editorial*) 5: 194
Baker—see St Barbe
Baltic coast—tourist resorts closed by pollution 4: 17
Bartering system — in Sri Lanka 5: 209
Biogas — generates employment, energy and fertilizer 2: 58-59
shared benefit in China 2: 64
Biomass — fuels in the USA 2: 67-68
Birds — rare species threatened in Kerala's Silent Valley 4: 185-187
and in Strangford Lough 3: 136-137
Blueprint for Survival are Kibbutzim carrying out the *Blueprint* Society? 3: 125
Brazil — see Amazonia
Breton nationalism — 5: 232
Bribery and Corruption — in the timber industry in the Philippines 1: 11
Bryce-Smith, Professor — proved absolutely right on dangers of lead in petrol 3: 117
Buffalo — preferred to tractors in Sri Lanka 5: 214
Bullocks — economical in traditional farming 6: 234

Canada — plant patents bill 6: 239
C.E.G.B. — and nuclear power 2: 80-86
Chemical plants — cause of pollution in Poland 4: 179-181
Children — adversely affected by lead in the atmosphere 3: 117-123
Cicero — on man's domination of the Earth 5: 206
Class — maintained by wealth in the Third World 2: 55
CLEAR (Campaign for Lead Free Air) — 3: 117-124
Coal — surface mining in USA 2: 71
effect of nuclear power on price 2: 83
miners against nuclear power 2: 86
Communications — concepts of information 3: 107-115
CNG (Compressed NaturalGas) — a better solution than synthetic petrol 4: 170
Conservationists — vs preservationists in nineteenth century USA 1: 28
Conservation Movement — in nineteenth century American politics 1: 25-31
hostility to Government planning 6: 264-265
in Kenya 3: 101-106
Cover-ups — of environmental degradation in Poland 4: 182

Dams — planned for Bharathaphuza river in Kerala forest 4: 185-186
hydro-electric scheme for Clutha river in New Zealand 1: 41
Debts — Mexico, Argentina and Brazil *inter al* resort to asset stripping to meet international debts (*editorial*) 5: 194-195
Decentralisation — proposed by Reagan Administration 6: 264-266
Deforestation (see also Tropical Rainforests) — in Ancient Greece and Rome 5: 196-207
in India 4: 158-168
in New Zealand 1: 37-39
in Sri Lanka 5: 212-213
Development — the enemy of Peace 6: 243
Disaster — inevitable unless ecological destruction is halted 5: 194-195

Ecodevelopment — in the Third World (*editorial*) 1: 2-3
Ecological crisis — in Poland 4: 176-184
in New Zealand 1: 32-42
Ecologists — lacked insight in Classical Rome and Greece 5: 207
in nineteenth century American politics 1: 28-29
Economics — of nuclear energy 2: 80-86
used illogically to support synthetic petrol project in New Zealand 4: 173-174
Economy — affected globally if Third World adopts Alternative technology 2: 54-55
destroyed by logging companies in Siberut 1: 12-13
Education — children's abilities impaired by lead 3: 122-124
Electricity — costs increased by nuclear generation 2: 80-86
in rural India mistakenly welcomed as bringer of better life 2: 62
Kerala State El. Board plans high dam 2: 62; 4: 185-186
Endangered species — in Kerala forest 2: 185

Energy — comparative per capita cost in developed countries vs Third World 2: 58
imported to the Third World 2: 59
from biogas 2: 58
Entropy law — not the supreme law of the universe 3: 109
Environment — attitudes towards in Israel 3: 125-134
changes in prehistoric New Zealand 1: 32-42
Environmental crisis — in American politics 1: 23-31; 6: 264-265
in Poland 4: 176-184
protest in Kerala 4: 187-188
EPA (Environmental Protection Agency) — and Reagan Administration, pose threat to conservation lobby 6: 264-265
Erosion — described by Plato 5: 201
worse in US now than in the dustbowl era (*editorial*) 1: 2-3
Estuarial wildlife — under threat at Strangford Lough 3: 136-137
Ethics — see expediency
Eucalyptus — damages traditional responsibilities of Indian villagers for their trees 4: 162-163
not suitable for fuel 4: 164
Expediency — the enemy of ethics 5: 194-195
Experts — no longer uncritically trusted by the public 4: 149-156

Factory farming — the norm on Kibbutz farms 3: 128-131
Firewood — and fodder in social forestry programmes in India 4: 159
Floods — and deforestation in Ancient Greece and Rome 5: 202
FAO — among world's largest promoters of pesticides 2: 50-51 and 3: 99 (*editorial*)
supports logging lobby 1: 141-117
World's Forestry Conscience? 1: 17
Forest dwellers — see Lacandons
Forestry — social programme in India 4: 159
Forests (see also Tropical rainforests; Deforestation; Men of the Trees)
management in Ancient Greece and Rome 5: 196-207
private *vs* communal ownership in India 4: 161-162
ruthlessly exploited in New Zealand 1: 32-42
France — historical/geographical regions 5: 217-224
Franklin Benjamin — view of American 'Plenty' 1: 23
Fuel — biomass in the USA 2: 67-74
campaign for lead-free petrol 3: 117-124
synthetic petrol planned in New Zealand 4: 170

Gas — to produce petrol synthetically in New Zealand 4: 169
Gene banks — of limited value in keeping seed varieties 6: 240
Gobar gas — see Biogas
Green Lobby — strengthened by co-operation in USA 6: 265
and Solidarity in Poland 4: 176-184
Green Revolution — ill effects on Indian forestry and agriculture 4: 158

Habitat — destroyed in Kerala's Silent Valley 4: 185-188
Health — damaged by lead poisoning 3: 117-124
H.D.R.A (Henry Doubleday Research Association) — saving seeds for posterity 6: 236-242
working with Sri Lankans to establish Third World vegetable sanctuary 6: 240
Homo Sapiens — a despoiler of the natural world 1: 33
Hunter-gatherers — in early New Zealand history 1: 33-41
Hydroelectric scheme in Kerala — 4: 186

Information — theory and shortcomings 3: 108-116
Shannon and Weaver's concept 3: 108-109
India — see also Kerala — electricity regarded as a solution to many problems 2: 62
Western technology brings its own problems 2: 57-64
social forestry 4: 159
Indonesia — see South East Asia
Industrialisation — a disaster in New Zealand 1: 39-42
Irrigation — traditional tanks in Sri Lanka 5: 214-215
Israel — see Kibbutz
ITFRS — proposed International Tropical Forest Reserve System 6: 256
IUCN — World Conservation Strategy 6: 254

Java — see South East Asia

Kemeny, Leslie — pro-nuclear expert in Australia 4: 150
Kenya — new approach to wildlife conservation 3: 101
Kerala — rapid destruction of forest threatens Silent Valley 4: 185-87
Kibbutz — attitudes to families and children 3: 131-133
collectivism in Marxist/Stalinist tradition 3: 127-128
is it the Ideal Society described in *Blueprint for Survival*? 3: 125-134
lack of interest in environment 3: 126
intensive agriculture 3: 125-129
role of women 3: 133

Lacandon people — last remnants of Mayan culture under threat 3: 135-136
Land — and water resources in USA 2: 67-68
Latin-America — tropical forests threatened 1: 4-20
Lawther Report — on lead pollution 3: 121
Lead — campaign for lead free petrol 3: 117-124
in food crops 3: 119-121
motor industry's attitude to 3: 118

Logging — see also Deforestation and Tropical rainforests — adverse impact on Mentawaian people 1: 12-13

Malaysia — see South East Asia
Men of the Trees — created by Richard St Barbe Baker 4: 146-147
Maori — traditional culture attacked by white settlers in New Zealand 1: 33-34
burial grounds threatened by proposed synthetic petrol plant 4: 171
Marxism — as practised in Kibbutzim 3: 131
Maziara — water cooling jars (*editorial*) 1: 2-3
Methanol — a viable alternative to synthetic petrol in New Zealand 4: 172

Mexican Indians — culture destroyed 3: 135-136
Mira Behn — obituary 6: 266
Moa Hunters — earliest Polynesians in New Zealand 1: 33-34
Mobil — promoters of synthetic petrol plant scheme in New Zealand 4: 172

Nuclear energy — economic fallacies 2: 80-82
effect on coal prices 2: 83
the debate in Australia 4: 150
PWRs and Sizewell 2: 86

Overpopulation — effects on tropical forests 1: 5-6
Oyster farms — under threat in Strangford Lough 3: 136-137

Pax — its meaning in the Middle Ages in Europe 6: 246
Peace — cannot be achieved alongside growth and development 6: 243
Pests — controlled by traditional methods in Sri Lanka 5: 211
Pesticides — in food stuffs 4: 99
promoted by FAO 2: 50-51
Petrol — plans for synthetic manufacture from gas in New Zealand 4: 169-175
industry's attitude to lead-free campaign 3: 117-124
Plant patents see also UPOV — an idea for preserving species 6: 236
Plastics — factory in a Kibbutz 3: 126-7
Poison — 'Xylamit' used in construction industry in Poland 4: 176-177
Poland — Solidarity's lead in environmental awareness 4: 176
Ecology club formed 4: 182
policy of rapid industrialisation 4: 182
pollution a huge problem 4: 176-178
Pollution — of air and foodstuffs by lead 3: 117-124
caused by chemical plants in Poland 4: 176-184
Poverty — seen as a cause of pollution 3: 399
Progress — incompatible with ecological stability 3: 107-116

Rainforest — see Tropical rainforest
Reagan Administration — a threat to the environmentalists 6: 264-266
Regionalism — in France 5: 217-226
Religion — significance in Silent Valley 4: 185
Sacred Groves respected in Classical Greece and Rome 5: 204-205
R & D — into Alternative Technology funded by government in USA 2: 63
Rice — hybrid strains require artificial fertiliser 5: 212
reduction from over 200 to very few varieties 5: 209-211

Science — the experts take a beating 4: 149-156
Seeds — see H.D.R.A. — thousands of varieties fated to disappear 6: 236
companies bought up by Royal Dutch Shell and other multinationals 6: 236
Social — forestry in India 4: 158-168
Solar energy — 2: 60-61
Solidarity — bringing environmental awareness to Polish people 4: 181
Solomon Islands — see South East Asia
South East Asia — economic, ecological and social disruption throughout the region brought about by logging operations 1: 7-20
Sri Lanka — traditional agricultural methods 5: 209-216
Third World's first vegetable sanctuary 6: 240-241
varieties of rice lost 5: 209-211
St Barbe Baker, Richard — obituary 4: 146-147
Stockholm Conference — ten years after 3: 98-100
Strangford Lough — wildlife threatened 3: 136-137
oyster farms will disappear 3: 136-137

Technology — the problems of control 2: 87-92
dominated by big-fast concept 2: 89
rational evaluation nearly impossible 2: 91
Tenakoon, Mudiyanse — Sri Lankan prophet and farmer interviewed by ERG 5: 209-216
Third World — see also South East Asia — cost of Alternative Technology (*editorial*) 1: 2-3
destruction of seed varieties 6: 249
deforestation 1: 4-2
Tidal electric power project — in Strangford Lough 3: 136
Timber — see also forestry — and pulp and paper industry in New Zealand 1: 35-40
Trade — will destroy the basis of a sustainable society (*editorial*) 1: 2-3
TNC (Transnational Corporations) — adversely affected if Third World adopts Appropriate Technology 2: 54
Tropical rainforests — destruction in the Third World 1: 4-22
and Amazonia 6: 248-52
involvement of World Bank, FAO and IMF 1: 17
reserves proposed 6: 253-256
shifting cultivations a major factor 1: 7
Silent Valley threatened in Kerala 4: 185-188
the social factors 4: 158-168
woodchip industry and logging 1: 12-15

Ulster — see Strangford Lough
UNEP — achievements and constraints (*editorial*) 2: 50-51
muzzled by lack of funds (*editorial*) 3: 95-100
UNESCO — Man in the Biosphere Programme 6: 254
UPOV — International Union for Protection of Plant Varieties 6: 236
USA — environment crisis 1860-1920 1: 23-31
Forest Service failure in conservation 6: 264
land used for biomass energy production 2: 67-78
Utilitarianism — in the choice of technology 2: 89

Vegetables — many varieties disappearing 6: 236-247
Third World sanctuary set up in Sri Lanka 6: 240

Water — pollution of Polish rivers 4: 178
Warfare — contributed to forest destruction in Ancient Greece and Rome 5: 203-204
Whaling and sealing — in New Zealand 1: 35
World Bank — proposed to administer funds for tropical forest reserves 6: 257
how the annual budget is distributed 2: 52

DIGEST INDEX

ACA (Alkali and Clean Air Inspectorate) — angered by puny fines for offenders 6
Accidents — see Nuclear accidents
Acid Rain —European anger at Heseltine's absence from Conference 2
— falling all over Britain 5
Aluminium — smelter at Invergordon written off 2
Antibiotics — warning on misuse 1
— British milk has highest level in Europe 2
Anti-nuclear protests — cuts in Sizewell safety requirements exposed 5
— mount legal challenge re safety at Hartlepool 6
Aquifer — polluted in New Jersey 2
Asbestos — effectiveness of tests questioned 3
— lung damage in Yorkshire factory workers 4
— death of a carpenter exposes weakness of medical opinion 4
— health officer issues warning 4
— paper masks offer no more than cosmetic protection 4
— new regulations in UK designed to halt further public hearings 4
— Swaziland workers exposed to unacceptable levels in British factory 5
— motor components company admits health hazards 5
— claims represent huge cost to the insurance industry 5
A-Test victims — aftermath of government tests result in trials at Salt Lake City 6
— compensation demands 2: 5: 6

Bangladesh — accepts WHO drug recommendations 4
Breast vs Bottle — War-on-Want attacks British baby-foods manufacturers of misleading mothers 2

Cadmium — pollution increasing in Denmark 1
California — bans dumping of toxic wastes 6
Cancer — safeguards blocked 2
— high risks for women asbestos workers 3
— aldrin, a cancer-risk chemical, supplied to Kenyan farmers by British company 3
— from DBCP-polluted water supply in California 5
— caused by 'Agent Orange' and 'Agent White' used by US army in Vietnam 6
Carpet mites — can cause fatal disease 6
Chemicals — PCB spill in Belfast hushed up 2
— PBB disaster in Michigan 3
— foetuses can be contaminated by father's association with carcinogens 3
— 2,4,5-T linked with cancer 3 . . . and given clean bill of health in Britain 6
— metasystox 55 fumes from canister put 27 in hospital 4
— chromosome damage — toxic chemicals suspected 5
— DBCP-polluted water linked to cancer deaths in California 5
— Benzene no agreement reached on risks 5
— 'Agent White' and 'Agent Orange' linked with cancer in Vietnam veterans 6
CLEAR (Campaign for Lead Free Air)—gaining ground 3
Civilian vs Military nuclear reactors — differences are a myth 6
Cotton spinners — evidence of crippling disease 5

Dam — threatens Malaysia's National Park 3
DDT — see pesticides
Dioxin — see pesticides
Drugs — *Debendox* could damage foetus 3
— *Valium* linked to brain death 3
— firm of Eli Lilly withheld data from FDA in US 5
— penicillin ineffective against VD in Britain 5
— *Oraflex* — data withheld by manufacturers 5
— *Benedictin* re-examined for links to birth defects 5
— *Epilim* — used in epilepsy may cause spina bifida in unborn child 6
— *Opren* — manufacture suspended 6
death victims families in protest 6
— *Depo Provera* misuse with mentally handicapped feared 6
— *Slow K* linked with ulcer risks 6

Energy — consumption drops again in US 3
Explosions — at Toronto missile component works 6
— at S. African A-bomb plant 6
Farmers for a Nuclear Free Future—group started in Devon 6
— in Utah will at last get new hearing about fall-out losses 4
Foam — dangers of toxic gas 3
— new safety regulations proposed 2
Food — safety standards threatened by new laxer regulations in US 2
— canned meat 'unfit' for human consumption in UK sold to Lebanon 5
Formaldehyde — in domestic foam products, new regulations proposed 2

Germany — nuclear industry faces bleak future 1

Herbicides — see chemicals

Kenya — farmers supplied with dangerous pesticides 3

Lead — in petrol serious hazard 2
— ban supported by oil industry 2
— in blood 4
— warning on lead pipes ignored 4
— risks to the unborn 5
— Labour pledges lead-free petrol 5
Legal Aid — for Shell and BP to defend themselves against lead-death charges 2
Leukaemia — death at Nuclear plant 1

Milk — British has highest antibiotic level in Europe 1
— contaminated by heptachlor in Hawaii 5

NIOSH (National Institute for Occupational Safety) study opposed by US Navy 6
Nuclear Accidents — 'acceptable deaths' figure causes dispute 2
— more likely than experts predicted 5
Nuclear Industry — bleak future in Germany 1
— costs soar and Texas citizens vote against it 1

— leak at Windscale blamed on fuel rod 1
— costs of cleaning up at Three Mile Island 1
— casualty plans derided by doctors at Sheffield 2
— early warning system's effectiveness questioned 2
— Reagan Administration gives moral and financial support 2
— plant director murdered 3
— leaks in French reactor 3
— CEGB forecasts of electricity demand in UK so low they challenge the need for major additions to generating capacity 3
— ex-chief of nuclear submarine programme in US resigns and blasts industry he helped create 3
— Urals disaster—explosion or pollution? 3
— PWRs in US plagued with corrosion 3
— effects of nuclear war 4
— missiles explode during flight 4
— Three Mile Island only inches from disaster 4
— n. power will not lead to cheaper electricity 4
— new trial for farmers in Utah whose sheep died after above ground tests 26 years ago 4
— safety factors cut at Sizewell 4
— safety doubts in ageing reactors 5
— over 40 sites for power stations investigated by CEGB 5
— European Assembly votes against dumping at sea 5
— BNF deny nuclear leak on cargo ship 6
— Sizewell's 11.5 million pound fault 6
Nuclear Wastes — spread on Moruroa Atoll 1
— Russia proposes dumping in space 2
— dumping at sea voted out by Europe 5
NRC (Nuclear Regulating Commission) gives in to Reagan Administration on licence for Fast Breeder Reactor 5

OSHA (Occupational Safety and Health Administration) takes a backward step on regulations 5

PCBs — huge spill kept quiet 2
Penicillin — see drugs
Pesticides — resistence of vectors 1
— misuse in Kenya 3
— Brazilian bees immune to DDT 3
— Dioxin in Canadian trout lake 3
— Britain's DoE expresses concern 3
— Britain largest exporters to Third World 3
— Dioxin used in mix on roads causes contamination in Missouri 6
Plutonium — are British exports to US being misused? 2
— reactor project at Dounray gets setback 6
Pollution — of British rivers widespread 1
— at Windscale 3
Poseidon — missiles likely to explode 1

Radiation — kills man at Canadian A-bomb Plant 2
— threat if Polaris submarines are dumped in Pacific 2
— fears for people living near Windscale 2
— from leaks in ships 6
Radioactive wastes — Russia plans to dump in space 2
Radioactivity — a new hazard for smokers 2
Reagan Administration — gives nuclear industry economic and moral support 2
Three Mile Island — costs of clean up 1
— only inches from disaster 4
Tobacco barons — use sports promotion to get round TV advertising ban 1
Torness reactor — judged unnecessary 1
Uranium — world supplies may be less than supposed 1
US Mining Company — industrial giant goes bankrupt to avoid paying compensation 6
Valium — see drugs
Water buffalo — importance in Third World economics underated
Weedkiller — see also chemicals—may have caused Spanish 'oil' deaths 2
— cause of human illness and millions of deaths in young plants in Warwickshire 3
Wetlands — Severn/Trent scheme to go ahead 4

BOOKS REVIEWED

Ambio (Vol XI Nos. 2 - 3) Nuclear War: the Aftermath (*David Lomax*) 5: 227
Appelhof, Mary (compiler): Workshop on the Role of Earthworms in the Stabilisation of Organic Residues 5: 231 (*J.A.Gear*)
Alvarez, Robert: (see Wasserman)

Berry, Wendell: The Gift of Good Land 6: 268 (*Mike Hume*)
Boyden, Stephen; Millars, Shelagh; Newcombe, Ken; O'Neill, Beverley: The Ecology of a City and its People: the case of Hongkong 3: 141 (*John Elkington*)
Bradley-Martin, Esmond & Chrysee: Run Rhino Run 6: 269 (*Nicholas Gould*)
Brown, Michael: Laying Waste 2: 95 (*Brian Cope*)
Bruckmann, G: see Meadows

Cragg, John D (Ed): Hilbre, The Cheshire Island: Its History and Natural History 5: 230 (*Nicholas Gould*)
C.S.E.N.E. Report: The Real Cost of Nuclear Electricity in the UK (Review and reply) 3: 142 (*Dr P.M.S. Jones and Professor J.W.Jeffery*)
Dubos, Rene: Celebrations of Life 1: 46 *(Bernard Gilbert)*
Electricity Consumer Council: Planning Margins and Security of Supply Standards: An International Survey of Electric Utilities 2: 93 (*Ian Welsh*)
Eltringham, S.K.: Elephant 6: 269 (*Nicholas Gould*)

Jolly, Alison: A World Like our Own: Man and Nature in Madagascar 5: 230 (*Nicholas Gould*)

Komarov, Boris: The Destruction of Nature in the Soviet Union 5: 229 (*Jack Jones*)
Kumar, Satish (Ed): The Schumacher Lectures 4: 190 (*Jeremy Naydler*)

MacEwan, Ann and Malcolm: National Parks: Conservation or Cosmetics? 3: 139 (*Michael Allaby*)
Meadows, D; Richardson, J; Bruckmann, G: Groping in the Dark, The First Decade of Global Modelling 6: 268 (*John Robinson*)
Millars, Shelagh: see Boyden

Newcombe, K: see Boyden

Ospovat, Dov: The Development of Darwin's Theory: Natural History, Natural Theology and Natural Selection 4: 189 (*Edward Goldsmith*)
O'Neill, Beverley: see Boyden

Perenyi, Eleanor: Green Thoughts, a worker in the garden 4: 191 (*Bernard Gilbert*)
Preston, Thomas: The Clay Pedestal 1: 44 (*Bernard Gilbert*)
